

## MIGRATION FLAGS

Myriam Thyès, series, 2005–2007, 27 images. C-prints on Dibond, each 50 cm high and 67–75 cm large. Edition: 3

Each Migration Flag mixes two national flags, or one flag with a motif that shows one subject of this country's international relations (economic, political, cultural, migration, tourism) – the symbols interpenetrate and interact. Myriam Thyès' researches and Flash animations from the animation series 'Flag Metamorphoses' are the origins of this series of digital images.
